

ABSTRACT OF THE DISCLOSURE

5 A web television includes a display, a tuner, an  
internet module, and a PIP module. The tuner is arranged to  
select television video for display on the display and to  
select television audio for display by a speaker of the web  
television. The internet module is arranged to supply  
internet video for display on the display and to supply  
internet audio for display by the speaker of the web televi-  
sion, and the internet video and audio are derived from  
internet communications between the web television and  
internet content providers. The PIP module is arranged to  
provide a PIP area within a main area of the display. The  
internet video and the television video may be swapped  
between the PIP area and the main area of the display, and  
the speaker of the web television may be swapped between the  
internet audio and the television audio.
